WESTWARD HO! FOR COLONISTS

NEW RATES WILL MEAN BIG INFLUX

Railroads Have Prepared to Handle Largest Passenger Traffic in History—Pendleton and Umatilla Will Profit by Immigration—Rates are Very Cheap.

The fall colonist rates to the northwest went into effect yesterday and the already large passenger traffic from the east and middle west will be augmented by several hundred passengers daily within a few days. The rate is \$25 from Missouri river

points to any point in Oregon.

The rates are to be in effect for 30 days and it is expected that even last spring's phenomenal record will be smashed. The railroad companies have prepared to handle the largest amount of travel in the history of western railroading and from the amount of interest that has been manifested it is believed that the equipment will be entirely inadequate to handle the rush. Every available coach and every locomotive has been made ready for action. Many cars that had been relegated to the scrap heap have been brought out, painted up and pressed into service while additional motive power has been secured from roads which are not being called upon to handle such an enormous traffic as are those in the far west.

That Pendleton and Umatilla county will profit by the special rate is generally conceded. The western end of the county is thought to be especially fortunate as three big private land companies have had agents throughout the eastern state for several days and two car loads of prospective settlers are now enroute direct to Hermiston. One is from Iowa and one from Pennsylvania.

The rate from Missouri river points to Pendleton is \$25, from Chicago is \$33, from Columbus, O., \$39.05; from Knoxville, Tenn., \$43.05; Memphis, \$34.45; Montreal, Canada, \$47.70; New York, \$50; Washington, D. C., \$48.25; and St. Louis, \$32.00.

Diamond safety

The Diamond question is important. There is no place in all Jewellery where a jeweler or his customer can quicker drop their money.

Diamond safety comes from diamond experience. Our experience is our excuse for telling you that when you deal with us in diamonds there is no possibility of making a mistake.

It is our business to protect our customers, and we always see that it is done.

We carry a large stock of diamonds from 1-64 to 2K and can quote you the very lowest prices.

Take a look through our diamond display. You'll be interested.

In and About Pendleton

Wheat Drops Back.

The price of club wheat dropped back to 76 cents today. Bluestem remains unchanged at \$5. No sales were reported today.

Two Marriage Licenses.

Marriage licenses were issued this morning to Bruno Weber and Edyth Bryson of this county and to Farmer M. Edwards and May Hanna, both of this city.

Brothers Meet After 30 Years.

T. D. Matthews, the Butter creek sheepman, is enjoying a visit from his brother, Andy Matthews of Carthage, Missouri. The meeting of the two men at the local depot last Thursday was the first one in thirty years.

Buyers Baker County Sheep.

Bob Stanfield of Echo, yesterday, purchased 6,000 head of lambs from Miles Lee, one of the leading growers of wool in Baker county. The price paid is not known but is said to have been good for this season of the year.

Gift to Public Library.

L. G. McClellan, Pendleton manager for the Pacific states telephone company, has presented the public library a six volume work that is very much appreciated. The work is an Encyclopedia of Applied Electricity and is bound in half morocco. The gift is especially appreciated by the library people because the library has been short on scientific works. Mr. McClellan also presented the library with a volume of Ibsen's plays.

Another Railroad Change.

H. Gessell who has been section foreman of the Pendleton section for the past three years and who has been considered one of the best men on the system has resigned his position here to accept one on the Washington division and is now moving his family to Latha, Washington. His place here will be filled by M. J. Moran of Barnhart, while A. Zindler of Coyote is being advanced to Barnhart and O. E. Henlin, a new man from Missouri will be stationed at Coyote.

Ship Cattle to Tacoma.

Another big shipment of cattle was made over the Northern Pacific from this point today. The shipment included 250 head of fine beef stuff which had been purchased by representatives of Carsten Brothers of Tacoma. Among those who were A. E. Hascall and brother of Pilot Rock, Frank Hilbert, Ralph Clark and Lee Mossit of Camas Prairie. Another shipment is now en route to Pendleton from the south end of the county, the cattle having been purchased by Nate Raines for shipment to the Frye-Bruhn company of Seattle.

Will Be Buried Here.

Jack Bushell, the young man who was drowned in the Columbia river near Pasco a few days ago while trying to rescue a boy he thought was in danger of being drowned, will be buried here tomorrow. His body was recovered near Wallula today and a representative of the Baker & Folsom undertaking establishment will leave this evening to take charge of the remains and bring them here on the morning train for interment. The deceased was a brother of Mrs. Mabel Ross of this city.

WAREHOUSE COMPANY IS INCORPORATED

Articles of incorporation for the Umatilla Storage & Commission company were filed today with county clerk Saling. The incorporators are E. W. McComas, W. J. Clark and G. W. Phelps. The capital stock is to be \$5,000 and Hermiston is to be the principal office.

This is the company, announcement of whose organization was made several weeks ago. The incorporators are all well-known, McComas being the local representative of the Northwestern Elevator company, Clark being of the W. J. Clark Hardware company and Phelps being the district attorney for this judicial district.

The purpose of the company is to erect a warehouse or warehouses and to carry on a general warehouse and commission business. Eventually it is intended to erect fruit canneries and carry on other lines of business which may be run in connection.

The site of the original plant will be on the ground formerly occupied by the Hermiston mercantile company for a lumber yard.

STRIKERS SURROUND COMPANY PLANT

Pittsburg, Sept. 15.—The Pressed Steel Car company's plant was surrounded by five thousand dissatisfied strikers this morning when the whistle blew. Many workmen not sympathizing with the strike were forcibly prevented from working. Several were roughly handled. The men striking are practically the same as those who struck recently. Many strikers today declared they were betrayed by their leaders in the first strike.

BANKERS MAY NOT ENDORSE TAFT'S IDEA

Chicago, Sept. 16.—The Central National bank idea as outlined by President Reynolds and endorsed by Taft may not be adopted by the bankers in session here. Opposition arose among western financiers who say it will wipe out a number of country banks, drain banks in the west and concentrate money in the east.

CITY SERVES AS AN EXAMPLE

WALLA WALLA COUNCILMEN INSPECT CINDER ROADBED

Contemplating Changing from Planks to Cinders, They Visit Pendleton to Examine Conditions Here—Aldermen Also Visit City Hall and Jail and Express Approval.

That still another city is able to take lessons from Pendleton was indicated this morning when five members of the council of the city of Walla Walla and the city clerk arrived in Pendleton to examine the Northern Pacific track along Webb street where the planking had been replaced by cinders. It seems that the roadbed of the Walla Walla Valley Traction company in the city of Walla Walla is covered with planking, the same as the Northern Pacific track here was formerly, and that the company is desirous of taking up the planks and putting down cinders, alleging that the change would be more satisfactory to the city and company alike.

It was for that reason therefore that G. D. O'Connor, the Walla Walla manager of the Northwestern Gas & Electric company and manager of the Walla Walla Valley Traction company, piloted the Garden city's aldermen to this city so they could make a personal investigation of conditions here. Those in the party were Councilmen C. H. Whiteman, Fritz Lend, A. Nebergall, C. H. Cummings, Fred Bachold and City Clerk T. D. S. Hart. The party was also accompanied by W. F. Baker, roadmaster for the Walla Walla Valley Traction company.

Following the inspection of the railroad track the men from the Garden city visited different parts of the city and called at the new city hall. They were shown through this structure and were taken down into the jail, which, as usual, was open and empty. The visitors were informed that Pendleton had little use for a city jail. The bastille was occupied for a few minutes, however, when two members of the party proceeded to bar the remainder of them in.

The most of the visiting committee seemed to favor the plan of cinders in place of the boards between the rails and it is probable that the change will be made in that city.

BROWN TO COACH HIGH SCHOOL TEAM

During the coming season the high school football squad will be coached by Edward Brown, now instructor in science in the school. Mr. Brown is a graduate of Washburn college, Kansas, and played center on the Washburn team for three seasons. He was also chosen for the All-Missouri valley team. So it will be seen that he is well qualified to coach the local boys.

This year the high school team will be managed by Hawley Bean who is also one of the "warhorses" on the team. Devine, tackle and star goal kicker, is the captain and should make a good one for he has had much experience. Other old players are McDill and Kimball, while Struve, Graham, Snyder and Hunderman have all had some experience. Bowman, Thompson, Cliff Jordan and Williams are new men of promise.

According to Manager Bean the first game will be played at Eugene, with the Eugene High, October 6. In the same place the U. or O. freshman team will be played October 9. Walla Walla High will be played here October 15; Baker City High will be played here Thanksgiving and La Grande High will be played here on November 12.

William Doedeck and wife returned last evening from an extended vacation visit to the exposition in Seattle. They also visited in Tacoma, Everett and other sound cities, as well as in Portland. Mrs. Goedeck has been gone for a couple of months, while her husband has been absent from the city since the first of September. Though both enjoyed the trip very much they were glad to return, Mr. Goedeck declaring that Pendleton is still the best town in the northwest.

TALLMAN'S MT. HOOD

PEROXIDE
GREASELESS

CREAM

An excellent skin food and complexion beautifier. Effectually removes all blackheads and blemishes, leaving the skin soft, smooth and velvety. Prevents chapping and roughness. Will not stain the most delicate colors.
